

## CWO 732X (AVIATION OPERATIONS)

### DESIGNATOR DESCRIPTION

(Aviation Operations Technicians) Serve as technical specialists in the field of Anti-Submarine, Anti-Surface, and Reconnaissance aviation operations for Carrier based assets and shore based Maritime Patrol and Reconnaissance aircraft. They assist in the organization, planning, supervision, and direction of Navy tactical mobile systems (TacMobile) Operations in fixed-based/expeditionary environments and Aircraft Carrier Tactical Operations Center (CVN-TOC) supporting operations, brief and debrief operational flight crews, evaluate and determine in-flight operational efficiency of sensor system components; supervise pre-flight, in-flight and post-flight inspection of equipment. They train and supervise flight crew development pipelines employing a broad knowledge of the characteristics and employment of tactics in the principles of radar, imagery, electronic countermeasures and underwater acoustics.

They may serve as, but are not limited only to serving as, squadron aircrew training officers and aircrew division officers or in various operational and staff billets.
